

2025  
SCHEDULE

## TRAIN WITH SUMMIT REFRIGERATION

### INTRODUCTION TO AMMONIA REFRIGERATION THEORY & OPERATION

**2-Day In-Person Training Course — \$650/Person (Includes breakfast and lunch both days)**

Expand your knowledge of ammonia refrigeration and safety procedures, and receive the theory and practical knowledge required to successfully operate today's more sophisticated systems.

**March 13-14, 2025 | June 25-26, 2025 | October 15-16, 2025**

### INITIAL & REFRESHER TRAINING FOR AMMONIA AWARENESS & RESPONSE

**1-Day In-Person Training Course — \$225/Person (Includes breakfast and lunch)**

This course covers topics such as hazards confronting responders, health affects of ammonia, procedures for handling emergency response defensively, respiratory protection training and proper leak isolation techniques. This course also covers OSHA requirements for awareness level training and operations level training, as well as the refresher training requirement for operations level responders.

\*OSHA requires that all positive pressure respirators are fit-tested using Quantitative Protocols. If you need to be fit-tested, please let us know at the time of registration, so we can discuss the details with you.

**April 9, 2025 | July 16, 2025 | October 1, 2025**

### DEVELOPING & IMPLEMENTING PSM FOR AMMONIA REFRIGERATION SYSTEMS

**2-Day In-Person Training Course — \$495/Person (Includes breakfast and lunch both days)**

This course is an introduction to PSM; written programs, roles and responsibilities, implementation including training, record keeping, and auditing. The course explores all 14 key elements (parts) of a comprehensive PSM program and how the overall architecture applies to each. Links between elements and integration with existing and sometimes overlapping current company policies are also discussed.

**April 23-24, 2025 | September 17-18, 2025**
